VI	**Others**															
32	Counselling room	8 x 11	88	Post final examination counselling	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓		

Recommendations

1) The following diagnostic equipment require specific operating eco-system - lighting, temperature, etc.
   a HFA
   b HRT
   c FFA
   d USG/UBM
   e ERG
2) Laser equipment (Yag, Green laser, etc.) - Restricted movement
3) If the outpatient department includes (a) minor OT, (b) administering Intra-vitreal injections, the layout should be designed to practice asepsis protocol
