11	Housekeeping store room											✓	
12	Prayer room (**)												

Recommendations :

Patient's accommodation room -

*Provision for immediate medical assistance call facility to be made?

* Shared rooms: Bed enclosure with curtains for patient privacy (this layout can be applicable for ambulatory care (short stay) as well as subsidised patients)

Nurses station -

* Locked storage for controlled drugs

* Alcove for temporary parking of loaded food trolley

Others :

* Food - can be provided as room service or a common dining area that can be used by both outpatients and inpatients. Both options have pros and cons - can be decided based on what works best for the hospital
* Intercommunication in each room.
**Prayer room in accordance with local practices
